

Breeder's Charter

The aim of the BHA Register of Breeders is to provide a service both to breeders and the public wanting to buy a hamster.

As the BHA cannot visit all breeders we rely on registrants to comply in all aspects when selling hamsters:

- 1** I have been a member of a BHA affiliated club for more than one year.
- 2** I am the breeder and owner of the hamster for sale.
- 3** I am satisfied that any hamster offered for sale is in good health, showing no signs of infestation by fleas or mites, and has not knowingly been exposed to any contagious disease or carrying a genetic fault.
- 4** Any known imperfections or disabilities will be pointed out to the purchaser, including hybridisation or conditions which would subsequently affect any offspring if bred from.
- 5** I will give the purchaser information as to the age of the hamster, the sex, parentage and my name and address or telephone number.
- 6** I will inform the purchaser of the food that the hamster is used to and any other care details which I feel are of importance.
